### Career Objective

Motivated and detail-oriented Web Developer pursuing a Bachelor of Computer Applications (Hons.) at Akal University (Graduation: 2026). Passionate about creating responsive, user- friendly, and scalable web applications using modern technologies. Interested in UI/UX and full-stack development.

### Education

**Bachelor of Computer Applications (Hons.) - Akal University** 2023 – 2026

### Technical Skills

#### Frontend

HTML  
CSS  
JavaScript  
Bootstrap

#### Other

Basic Ethical Hacking  
AI/ML Fundamentals

#### Backend

Python  
MySQL (Basic)  
PHP (Basic)

#### Tools

Vscode  
Cursor ai  
Xampp  
Postgresql

### Projects

#### Monday Test Scheduler

- A web-based weekly test management system.
- Tech: HTML, CSS, JS, MySQL.

#### Attendance Management System (Team Project – Ongoing):

Collaborating in a team of 7 to develop a role-based Attendance Management System using PHP, HTML, CSS, JavaScript, and Bootstrap. Contributing to UI development, backend integration, and module structuring for Admin, HOD, Staff, and Student panels. Currently working on authentication, dashboards, and attendance workflow features.

#### Smart Campus & ERP System

Developed a comprehensive ERP system using Python Flask, integrating student services, campus management, and administrative workflows. Implemented backend APIs, dynamic templates, and a scalable architecture. The system manages academic and non-academic activities, including course management, attendance, grades, and extracurricular activities.

### Certifications & Training

#### IBM SkillsBuild Summer Internship (Front-end Web Development) — CSRBOX & IBM SkillsBuild

6-week internship covering modern frontend practices using HTML, CSS, and JavaScript.

#### Basic Computer Training (120 hrs) — Infowiz

ISO-certified program covering MS Office and computer fundamentals.

#### Web Development Training — Infowiz, Chandigarh

Project-based learning in frontend technologies.

#### Google AI Essential

Successfully completed Google’s AI Essentials course on Coursera (Nov 1, 2024), covering foundational AI concepts, practical AI tools, and real-world applications.

#### Personality Development Course — Infowiz

Enhanced communication and presentation skills.
